

Joint Annual Meeting of the  
**AUSTRIAN PHYSICAL SOCIETY**  
**SWISS PHYSICAL SOCIETY**  
**AUSTRIAN SOCIETY OF ASTRONOMY AND ASTROPHYSICS**  
September 2 - 4, 2009  
University of Innsbruck

### *Sessions*

- Applied Physics
- Astrophysics
- Atomic- and Molecular Physics  
& Quantum Optics
- Particle- and Nuclear Physics
- Plasma Physics
- Solid State Physics
- Surfaces, Boundary Layers & Thin Films
- History of Physics
- Physics in School
- Poster Sessions

### *Common Social Events*

- Award Ceremony
- Scientific Equipment and Book Exhibition
- Conference Dinner

### *Plenary Speakers*

- Olaf Reimer (Stanford/Innsbruck):  
*The energetic universe seen through the eyes of FGST and HESS*
- Tim de Zeeuw (ESO):  
*Future perspectives of ground-based telescopes*
- Günther Dissertori (ETH Zürich):  
*LHC: Entering a new era in Particle Physics*
- Franz Pfeiffer (TU München):  
*X-ray phase contrast for better images in medical diagnostics*
- Markus Arndt (Uni Wien):  
*Coherent manipulation of large clusters and molecules*
- Walter Riess (IBM Rüschlikon):  
*Materials challenges for future nanoscale electronics*
- Karl Unterrainer (TU Wien):  
*THz Science: Exploring the secrets of nanostructures*
- Sonia Seneviratne (ETH Zürich):  
*Climate Change - What are the main issues ?*
- Wolfgang Ernst (TU Graz):  
*Molecules in cold helium nanodroplets*
- Denis Weaire (Trinity College Dublin):  
*Reflections on a bubble: Physics, history and art*

#### *Public Lecture:*

- Anton Zeilinger (Uni Wien):  
*Einsteins Schleier*

### *Individual Society Events*

- SPS General Assembly
- ÖPG General Assembly
- ÖGAA General Assembly

**ABSTRACT SUBMISSION DEADLINE:**
